

# **Closing statement and next steps**

**Dr. Joost Monks, NORRAG, Switzerland**

# A few take aways

- Blurring of lines between “markets” and “morals”
- Multiplication of actors and agendas - fragmentation
- Emergence of new governance arrangements
- Need for contextualised definition and typologies to understand types and motivations of “Philanthropic” engagement
- Transparency and accountability
- Missing voices: Global South, new philanthropies, beneficiaries

# Next steps

- Discussions for 2018 ongoing in China, South Africa and India
- Knowledge production and dissemination
- What is it you would suggest as follow-up activities and dialogue?

# Thank you
